*An examiner's amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ann McCamey on 10/31/2006.

The application has been amended as follows:

Claim 38:

A computer program product comprising program code encoded on a computer-readable [recorded on a machine-readable recording] medium, for controlling the operation of a data processing apparatus on which the program code executes to perform a method of generating an interference texture for an image, wherein said method comprises the steps of:

- a) defining at least one texture region within the image;
- b) providing a plurality of shape elements, each shape element defining a surface and having an opacity that varies over the surface;
- c) assigning a focal point to each of the shape elements, wherein the opacity of each shape element varies with distance from the focal point;
- d) identifying a plurality of substantially equidistant points within each texture region;

e) placing a shape element at each identified point such that adjacent shape elements overlap with each other to provide a substantially uniform opacity within each texture region; and

f) rendering the shape elements for output to a printer or display device such that an interference of the opacities of the overlapping elements generates an interference texture within each texture region.

*Allowable Subject Matter*

Claims 1-6, 9-26, and 28-38 are allowed, corresponding to new renumbered claims 1-36.

The following is an examiner's statement of reasons for allowance:

The focal points are adjacent to a center of its associated shape element, and the opacity of shape element varies with distance from the focal point, see figs. 11-12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
